Elite LED MR16 Series

DIMMABLE • 25,000 HOURS • 12V

The same performance that you have come to expect in TCP PAR lamps can now be found in our LED MR16—the perfect replacement for 50 watt halogen.

LIMITLESS OPTIONS FOR THE FOLLOWING APPLICATIONS

- Track Lights
- Recessed Downlights
- Display Lights
- Outdoor Fixtures (that protect from the elements)

FEATURES

High Lumen Output
Up to 85% less energy than halogen alternatives
Smooth, uniform dimming
Long life
Very low heat generation
Excellent color consistency and CRI
Light weight
Shatter resistant

BENEFITS

Replaces 50W halogen MR16
Instant energy savings
Set the perfect mood & atmosphere
Minimizes replacement and maintenance costs
Perfect for sensitive display lighting such as art galleries
Enhances colors of focal point while maintaining uniformity throughout lighting installation from lamp to lamp
Track or downlight installations are not strained by excess weight
Lower the risk of injury and breakage

SPECIFICATIONS

Color Temperatures .................................................. 2400K, 2700K, 3000K, 4100K
Wattage Replacements .................................................. 50W
Input Line Voltage .................................................. 12V
Input Line Frequency .................................................. 50/60Hz
Lamp Life (Rated) .................................................. 25,000 hours
Minimum Starting Temp .................................................. -30°C
Maximum Operating Temp .................................................. 40°C
CRI/High CRI .................................................. 80/90
Beam Angles .................................................. 20°/40°
