TCP’s LED Security Light combines the look of a traditional barn light with the benefits of LED. An efficient alternative to HID, these security lights deliver bright uniform light while providing energy savings. A long 50,000 hour rated life significantly decreases maintenance labor and material costs over the life of the fixture.

The robust die-cast aluminum housing incorporates an impact resistant acrylic lens. An integrated button photocell is standard for dusk-to-dawn control. The security light mounts directly to a wall or horizontal arm up to 1 5/8” O.D. for easy installation or retrofit of traditional luminaires.
Applications
This product family can be effectively used in outdoor wall mount or horizontal arm mount locations. Commercial, industrial, and rural exterior lighting; parking lot, cargo door, high wall, area and security.

Construction
- Die-cast aluminum housing
- Impact resistant acrylic lens
- Durable silver powdercoat
- Mounts to a wall or horizontal arm up to 1 5/8" O.D
- Operating Temperature: -40°C to 45°C.

Electrical
- cULus wet location rated
- Easily access wiring for quick installation
- System rated for long 50,000 hour life
- Efficiently delivers up to 140 LPW

Optics
- Prismatic acrylic lens
