TCP’s LED Non-Cutoff Compact Wall Pack combines the look of a traditional wall pack with the benefits of LED. An efficient alternative to HID, these wall packs deliver bright uniform light while providing energy savings. A long 50,000 hour rated life significantly decreases maintenance labor and material costs over the life of the fixture.

The robust die-cast aluminum housing incorporates an impact-resistant polycarbonate lens. An integrated photocell is optional for dusk-to-dawn control. The wall pack mounts directly to a standard junction box for easy retrofit of traditional fixtures.

**Reasons to choose the LED Compact Wall Packs from TCP**

- Delivers bright, white light with excellent uniformity
- Wet location rated for safe outdoor usage
- Durable construction with die-cast aluminum housing and impact-resistant polycarbonate lens

**Ideal Applications**

- Site Lighting
- Security Lighting
- Pathways
- Entrances
- Perimeters
LED Compact Wall Pack

Applications
This product family can be effectively used in outdoor wall mount locations. Commercial, industrial, retail and healthcare exterior lighting; parking lot, cargo door, high wall, area, security, etc.

Construction
