TCP’s LED Barn Light combines the look of a traditional barn light with the benefits of LED. An efficient alternative to HID, these barn lights deliver bright uniform light while providing energy savings. A long 50,000 hour rated life significantly decreases maintenance labor and material costs over the life of the fixture.

The robust die-cast aluminum housing incorporates an impact resistant acrylic lens. An integrated NEMA photocontrol receptacle is standard for dusk-to-dawn control. A 3-pin photocontrol comes standard with each unit. The barn light mounts directly to a wall or horizontal arm up to 2 3/8” O.D. for easy installation or retrofit of traditional luminaires.

Reasons to choose the LED Barn Light from TCP
- Long 50,000 hour rate life minimizes replacements and labor costs
- Efficiently delivers up to 140 LPW
- Impact resistant acrylic lens
- Die-cast aluminum housing
- UL approved for wet locations
- Mounts to a wall or horizontal arm up to 2 3/8” O.D.

Ideal Applications
- Site Lighting
- Security Lighting
- Entrances
- Perimeters
Applications
This product family can be effectively used in outdoor wall mount or horizontal arm mount locations. Applications include commercial, industrial, and rural exterior lighting; parking lots, cargo doors, high wall areas, and security.

Construction
- Die-cast aluminum housing
- Impact resistant acrylic lens
- Durable dark bronze powder coat
- Mounts to a wall or horizontal arm up to 2 3/8” O.D.

Electrical
- cULus wet location rated
- Easily access wiring for quick installation
- System rated for long 50,000 hour life
- Efficiently delivers up to 1 40 LPW

Optics
- Prismatic acrylic lens
- Delivers bright, white light and excellent uniformity
- Clear, impact-resistant polycarbonate outer lens

Listings
- cULus Listed – wet location rated
- RoHS Compliant

Warranty
- Five year limited warranty against defects in manufacturing
