

LED Dimmable Edge-lit Snap-in CCT Selectable Downlights

TCP's LED Dimmable Edge-lit Snap-in CCT Selectable Downlights are the perfect choice for remodeling or new construction projects. The slim energy-efficient design is easy to install and offers a rated lifetime of 40,000 hours.

Reasons to choose the LED Dimmable Edge-lit Snap-in CCT Selectable Downlights from TCP

- Long Life: 40,000 hours
- Direct wire no recessed can required
- Slim design
- Excellent color consistency (CRI)
- Dimmable
- 6" & 4" diameter sizes
- Highly efficient LEDs and driver
- UL approved for damp locations
- Easy installation
- IC rated
- Edge-lit technology
- Selectable CCT (30K/40K/50K)

Ideal Applications

- Retrofits
- New construction
- Residential
- Office
- Retail
- Hospitality
- Drop ceilings
- Remodeling

Applications

Ideal for dimmable 6" & 4" downlight applications and perfect for retrofit or new construction downlight applications.

Construction

- Integrated J-box for direct wire application
- Spring loaded tabs for easy installation

Electrical

- UL approved for damp locations
- Easily access wiring for quick installation
- Long life: 40,000

Optics

- Excellent color consistency and CRI
- Smooth, uniform dimming
- Highly efficient LEDs and driver
