

Solistic LED Table & Floor Lamps

Product Specifications

Solistic lighting technology is the closest artificial lighting available to natural light. This healthy light mimics natural sunlight and allows your body to maintain natural biorhythms which can be disrupted by the blue light produced by typical LED lighting. Solistic lighting also shows true colors like one might see outside in natural daylight.

Reasons to choose the Solistic Table and Floor Lamps from TCP

- 1,000 Lumens of powerful lighting
- 4000K Cool White color temperature
- Matte black finish
- Integrated dimming
- 95 High CRI
- Adjustable neck allows for custom lighting positioning
- Supports your body's natural circadian rhythm
- Promotes a more healthy sleep cycle and more productive awake times
- Renders true depth of colors
- Low blue peak healthier for the human eye vs artificial lighting

Ideal Applications

- Commercial
- Residential
- Hospitality
- Healthcare
